Choosing a council

On Tuesday, May 7, Portlanders will choose either John Harrigan, Robert "Danny" Lee, Richard W. Paulson or Carolyn Silvius (pictured, left to right) to fill an at-large seat on the Portland City Council.

For news of these and other races, see page 8.

Living together

Shacking up isn't what it used to be. Today, cohabiting couples run the gamut from students to senior citizens.

Children’s Museum moving forward

Officials from the Children’s Museum of Maine announced on April 24 that they had made an offer to buy the Portland Chamber of Commerce building and move the museum into the building by late 1992.

Museum officials said they needed to raise approximately $15 million to fund the purchase and construction of the new museum. The museum has already raised $200,000, according to Fredric O’Donnell, president of the museum and a member of Maine Broadcasting. The city of Portland pledged to buy a parking lot behind the building for $250,000.

“I’m very optimistic that we can raise the money,” said museum Director Anthony Mullen. “Right now. it’s up to the chamber to raise the money.”

The offer was rejected by the Portland Chamber of Commerce and the city of Portland. The museum has been in Portland for 15 years. The museum has a board of directors that includes 15 members, according to O’Donnell.

“The offer was rejected by the Portland Chamber of Commerce and the city of Portland,” said O’Donnell. “But it’s not over and it’s not going to be over.”

If you rent, you could own?

The Home Ownership Program for Everybody means that you can finally move into your own home. It’s never been easier or cheaper to move into your own home. We can help you find a home that suits you and a payment plan you can afford—it’s that simple.

Affordable waterfront living.

Living at Breakwater is special. Located right on Cape Bay, Breakwater is a destination of unique water vistas and a home that suits you. We can help you find a home that suits you and a payment plan you can afford—it’s that simple.

Breakwater

is giving renters H.O.P.E.

The Home Ownership Program for Everybody

If you’re not thinking that you could never afford to own a home, there is finally H.O.P.E.

Don’t let H.O.P.E. run out—visit soon.

This offer and these houses won’t last long. You should visit Breakwater soon. The homes aren’t for many opportunities to live by the ocean—in your own home—at such low prices... to take advantage now.

City cuts art museum budget

The Portland Museum of Art had been expected to receive a $500,000 donation from the city of Portland to help fund the multimillion-dollar Joan Whitney Payson Collection, but the city cut the museum's funding for the current fiscal year to $910,000, down from the $1.2 million the museum had requested.

Judge lifts small-claims limits

On April 13, Judge lifted an order that would have eliminated small-claims cases per month, which was filed in aid of execution for Maine's small-claims court. The order, which would have been linked to a new claims system that would have been linked to a new claims system, was lifted on April 13.

There are many small claims cases that are filed in the courts. But many businesses are affected by the new system because they are small. Clarke Court in a vehicle to collect on bad debts.

Clarke offers to lift the claims system in effect May 1, along with a new system designed to minimize the pressure of small-claims court.

Under the new system, the business will be able to file the claim in the same manner as if it had been filed in the claims court. And if the claim is not paid within 15 days, it will be sent to the claims court for collection.

The court said the new system would reduce the number of claims by 39 percent, and it would eliminate the need to file a new claim each time a new claim is filed.

The court also said the new system would eliminate the need to go to the claims court to file a new claim.

The court also said the new system would eliminate the need to go to the claims court to file a new claim.

Mural spruces up in-town storefront

The bank on Monument Hill at Olsen Moore that had been a main street and that was soon to be a mural on Monday.

Brown, coordinator of murals at the John St. School, said the mural was paid for by the city and local businesses.

Some businesses are concerned that the new system is designed to minimize the pressure of small-claims court.

But he said a major rate hike would be too much for some subscribers.

Some businesses file a dozen or more claims a month and are not affected by the new system, he said.

The court also said the new system is designed to minimize the pressure of small-claims court.

And if the claim is not paid within 15 days, it will be sent to the claims court for collection.

Voter's Guide

Choosing a council candidate

On Tuesday, May 7, Portlanders will also decide on council candidates as well as representatives to the Portland Water District and the school committees. Portlanders will also decide on three referendum questions. Cape Elizabeth and 22 other Maine municipalities will also hold local elections.

In Portland, three of the nine seats on the city council are open. Only three seats, the large, are at-large. That four-way race is between former Councilor Robert "Danny" Lee, Richard W. Paulson, Carolyn Silvius and John Harrigan.

Short biographies of each appear below.

Ward district races

In school committee races, Susan M. Clark and Harold Pringle, Jr., are running for new seats on the Portland school board.

In the District 1 race for the West Side Neighborhood Water district, Paul O'Donnell has chosen to run against the incumbent, Carolyn Silvius.

Compiled by Andy Newman.

For Portland City Council at-large:

John Harrigan

772-7472

500 Cumberfield Ave. Room C

This is Harrigan's first bid for the city council. Harrigan gained notoriety in Portland politics when he was first appointed by then-Mayor, William, to the city council after the death of a city councilor in early 1991. Harrigan is a long-time Portlander and a member of the Waterfront Alliance and the property owners' group of Portland and has served as the administrator of the U.S. Marine Corps Base, Portland, and has no children.

Robert "Danny" Lee

772-4621

36 Edgeworth Ave.

The sharp-tongued Lee is running for re-election to the city council.

He served on the Portland Planning Board and has served on the Portland Board of Education. He has worked as a realtor for the Portland Planning Board.

For Portland City Council District 1:

Carolyn Silvius

772-3046

1076 Moulton St.

Silvius is the incumbent serving District 3 since May 1990, when she was elected to fill the unexpired term of Frank Plante, who resigned, among other positions, to work at the New England College of Healthcare Administration.

For Portland School Committee-at-large:

Susan M. Clark

772-4615

235 Water St.

Clark is the incumbent on the school committee and has served for 10 years.

Jeffrey B. Clements

272 Congress St.

Clements is the incumbent for the West Side Neighborhood Water district and has also served on the Portland Planning Board.

For water district races

Paul O'Donnell

772-6677

135 Edgeworth Ave.

O'Donnell has been a public advocate for the city since 1988 and presently serves on the board of directors.

For Portland Water District Board of Trustees:

Ann B. Pringle

772-4414

58 Edgeworth Ave.

Pringle has served on the Portland Water District board for 10 years.

Jeffrey D. Clements

21 Higgins St.

Clements has been on the Portland Water District board for six years.

Ready to vote?

Just show up at your polling place between 7 a.m. and 8 p.m. on May 7. If you need a ride to the polls, call Richard Paulson's campaign at 772-5003.

If you need to register to vote, or if you don't know where your polling place is, read on.

How to register to vote

You can register to vote any day, including election day, Tuesday, May 7. Registering to vote is easy and takes only a few steps.

To register to vote, go to your local town hall. The town hall is located at the end of the street. You need to register to vote, or if you don't know where your polling place is, read on.

FOR PORTLAND CITY COUNCIL AT-LARGE: Richard Paulson

In this year's election, City Council candidates are demonstrating the cultural sensitivity necessary for public service. Truth, it's been argued, and later recognized, is the foundation for the act of governance. But is it also the right to be judged for his vision. Harrigan confessed (and later to CBW), "I'm concerned about the future of downtown. He's earned the right to be judged for his vision.

Richard Paulson

FOR TRUSTEE OF THE PORTLAND WATER DISTRICT: Jeff Clements

The Portland Water District (PWD) is the sleeping giant of regional politics. It's little-known board of trustees has governed the city's water supply for decades. But in the wake of the recent water crisis in the Sebago Lake watershed and much of Casco Bay, Portland's Water District has been thrust into the national spotlight. The district has been criticized for its management of the water supply, and its role in the decline of Casco Bay has been a major concern.

letters

Disregard for art

Do we need more artists working on the Casco Bay National Estuary Project (CBNEP)? This question arises in light of the recent controversies surrounding the design of the new PWD building. The project has been criticized for its lack of aesthetic appeal, and some have called for a more creative approach.

Where's the IPE?

IPE stands for the Intercontinental Piping Exchange, a commodities market that trades in oil and gas pipelines. But where is the IPE? It seems to have disappeared off the radar screen.

The greening of Greater Portland
New community gardens sprout up in Portland, South Portland

By Paul Lippoldt

On the only sunny day during a week of April showers, Elise Blatt cut on a third floor roof swinging a hammer. He is building a budget greenhouse, a kit which will plant hundreds of seedlings that have been sprouting in his West End garden to prepare for planting.

But Blatt is building more than a greenhouse. He's trying to build a revolution in the way Portland thinks about its food, its spaces to its vitality. By the end of the summer, and harvest it in the fall.

"We called the initial meeting because we were concerned about many things," says Blades Lippoldt of UMCE and PLANT, "but there are a lot of issues there. It may be the same land is used year after year. City governments can help by making the project affordable for everyone. Blatt is building more than a greenhouse. He's trying to build a revolution in the way Portland thinks about its food, its spaces to its vitality. By the end of the summer, and harvest it in the fall.

Sowing seeds

On May 4, PLANT will sow its first seeds — and hold a city-wide sign-up day. South Portland's gardens will be seeded and supplied with compost by the city's Parks and Recreation Department under the direction of PLANT's Dana Anderson. Blatt will oversee the Portland plots, watching it, tending the soil, and tracking in tepid and ferociously if needed.

PLANT will provide seeds, volunteering, tools, mulch, compost, and other supplies for each site. For those with little gardening experience or no property, "Garden gardeners," people interested in watching the growth of a community garden planed by a grandfather, mother and daughter. That's really great news.

The Portland garden will be the breeding ground for community-wide solutions to other problems like energy production and use.

PLANT's gardeners reap community fruits

While PLANT is still working on fine seeds, another community garden project is already growing in Falmouth and Gorham for several years. At Maine Audubon Society's Gosling Farm, in Falmouth, gardening has been growing strong for 12 years. "Since 1990, we've had a community garden program," says co-founder Lee Lawrence. "Every year, you can harvest a little more garden space.

"We need to connect people who farm with people who consume," says Peter, that means turning the food we grow to the people who need it. McLeod sees a link between the group's organs: gardening methods and its members' commitments to give to the larger community. The whole emphasis is toward the soil, not the PLANT's goal is to "decentralize the food system. We are trying to be as sustainable as possible. We also want to be helpful to each other. We don't see other human beings as people to compete with. Gardening is witnessing that people can share resources.

Public land, public planting

PLANT has already secured land for about half a dozen plots. South Portland just approved an add on to its Highland Avenue, and a Portland citizen donated a quarter-acre lot on Taft Avenue (just off Brighton Avenue).

But the group is already searching for more land . "We're looking for more land, for sure," says Blades Lippoldt. "Our goal is to create a network of gardens all over the state, not just in Portland."

"Ideally, every neighborhood would have its own plots. That could be the breeding ground for community-wide solutions to other problems like energy production and use."

But the group is already searching for more land. "We're looking for more land, for sure," says Blades Lippoldt. "Our goal is to create a network of gardens all over the state, not just in Portland."

"Ideally, every neighborhood would have its own plots. That could be the breeding ground for community-wide solutions to other problems like energy production and use."

Falmouth and Gorham gardeners reap community fruits

While PLANT is still working on fine seeds, another community garden project is already growing in Falmouth and Gorham for several years. At Maine Audubon Society's Gosling Farm, in Falmouth, gardening has been growing strong for 12 years. "Since 1990, we've had a community garden program," says co-founder Lee Lawrence. "Every year, you can harvest a little more garden space.

"We need to connect people who farm with people who consume," says Peter, that means turning the food we grow to the people who need it. McLeod sees a link between the group's organs: gardening methods and its members' commitments to give to the larger community. The whole emphasis is toward the soil, not just the PLANT's goal is to "decentralize the food system. We are trying to be as sustainable as possible. We also want to be helpful to each other. We don't see other human beings as people to compete with. Gardening is witnessing that people can share resources.
Ecological gardening
Advice for the organic gardener

It is always wise to consider the effects of the gardening methods you choose on the environment. As landowners, we all have a responsibility to do our part to help protect the planet, and gardening is one of the best ways to do this. In this article, we will explore some of the benefits of organic gardening and how you can make your garden more eco-friendly.

The benefits of organic gardening

1.保護 soil health
   - Organic gardening practices, such as composting and using natural fertilizers, help maintain soil health and fertility.
   - This results in healthier plants and better yields.

2. 减少化学药品的使用
   - Organic gardening avoids the use of synthetic pesticides and fertilizers, which can have harmful effects on the environment and human health.
   - Instead, organic gardening uses natural methods to control pests and diseases, such as crop rotation and beneficial insects.

3. 节约水资源
   - Organic gardening practices, such as covering the soil with mulch, help conserve water and reduce the need for irrigation.
   - This is especially important in areas with limited water resources.

4. 充分利用自然资源
   - Organic gardening uses natural elements, such as sunlight and wind, to their advantage.
   - This can help to reduce energy consumption and lower the carbon footprint of your garden.

5. 提高生物多样性
   - Organic gardening practices, such as creating habitats for wildlife, help to support biodiversity.
   - This is important for maintaining healthy ecosystems and ensuring the survival of many species.

6. 减少废物
   - Organic gardening practices, such as composting and recycling, help to reduce the amount of waste sent to landfills.
   - This can help to conserve resources and reduce greenhouse gas emissions.

7. 改善空气质量
   - Organic gardening practices, such as planting trees and shrubs, help to improve air quality by removing pollutants and producing oxygen.
   - This is especially important in urban areas where air pollution is a major problem.

8. 增加审美价值
   - Organic gardening practices, such as using native plants and creating gardens that reflect the local environment, help to enhance the aesthetic appeal of your garden.
   - This can help to improve the quality of life for everyone who lives in your community.

9. 提高生活质量
   - Organic gardening practices, such as creating gardens that provide opportunities for relaxation and recreation, help to improve the quality of life for everyone who uses them.
   - This can help to reduce stress and promote mental well-being.

10. 减少化石燃料的使用
    - Organic gardening practices, such as using solar power and wind energy, help to reduce the use of fossil fuels and lower greenhouse gas emissions.
    - This is important for addressing the global climate crisis.

Conclusion

In conclusion, organic gardening offers many benefits for the environment and for the gardeners who practice it. By adopting organic gardening practices, we can help to create healthier, more sustainable gardens and communities. So, let's all get outside and start gardening!

The Portland Women’s Rugby Club is holding a 10th anniversary celebration and dinner on May 2 at the Portland Country Club, 1324 Forest Ave., Portland. The dinner will start at 6 p.m. to celebrate the club’s 10 years of existence. The first regular season game was played in May 1987 with the president of the club, Janis F. Lord, taking the helm. The harbor was the site of the first match, which was against the Maine Islanders. The club continues to expand and grow, and is currently 150 members strong. The club is open to all, with financial assistance available to women who can’t afford the $200 fee for the season. For more information, call 774-0016.

The Portland Public Library is hosting a lecture on the future of community libraries by Frank C. Economou, president of Queens College, on Wednesday, May 2, at 7:30 p.m. at the library, 5142 Congress St., Portland. A reception will follow. Economou, who teaches political science and international relations, is also a scholar of Greek culture and history. He has published several books on Greece and its relations with the United States. The library is open to the public and is a meeting place for residents and visitors alike. For more information, call 774-0016.
