Your creativity, your determination, and your patience will go there and do the job. It's whatever we can do to educate people. It's whatever we can do to support our employees of those agencies. One of the primary goals is education. Whether it's doing in-service training for agencies or speaking to the public. It's whatever we can do to help them if there are problems, as there have been in the past, it would seem he'd be very supportive.

Larry Lamond appeared on "Donahue" as the U.S.'s first gay police officer to come out of the closet. Today, Lamond, on disability leave from the Maine State Police, recruits for the Gay Officers Action League (GOAL). The former, and non-sworn civilian, is a support group for gay, lesbian, bisexual, transgendered people, their families and friends. Was it OK to be out of the closet? Will it encourage other individuals to come out and do the job? Was it OK to be there and do the job? Was it possible to be there and do the job?

Larry Lamond was not able to say the word. I didn't dare say a word. Since that time, I've come out, and everyone there knows. Now it's always a friendly reception. We hope to establish a network of support so that if there is a problem, there's a support network in place. There was, there was no discussion of it. The roughest time I had was during that time was when my partner died, and I was working. I knew me, but they didn't know. What is GOAL? GOAL is a support group for gay, lesbian, bisexual, transgendered people, their families and friends. Whether it's doing in-service training for agencies or speaking to the public. It's whatever we can do to educate people.

Murder (or a heart attack)

There may be something sinister than the way Portland City Council sental the disputed ballots in the recent mayoral election. Holding irregular votes is normal, but in the case of Portland, it may have been a matter of life or death.

According to The Morning Program, the city's local newspaper, the ballots in question were those of the City Council in favor of an amendment to the city charter. The amendment would have allowed the council to vote on the matter at any time, rather than waiting until the next meeting.

But that's not the only thing that's suspicious. According to The Morning Program, the ballots were counted at a meeting that was called at 12:00 noon.

That's odd, because The Morning Program says that the city's mayor, who is also the council's chairman, was not present at the meeting. It's also odd because the meeting was called at 12:00 noon, which is usually a time when people are at work.

The Morning Program also says that the ballots were counted by the city's deputy mayor, who is also the council's vice chairman. But The Morning Program says that the deputy mayor was not present at the meeting.

This is all very suspicious, and it's not the only thing that's strange. The Morning Program says that the council's decision was made in the middle of the night, which is not normal.

Walking It Out

By Connie Pacillo

I made a decision this morning not to go. I guessed that I'd have a terror attack. I decided to treat the walk as a kind of family celebration. A real family celebration. We did it for the same reason we do any other event: to promote the cause, to celebrate with those who support it, and to recognize those who work so hard to make it happen.

So I woke up this morning with a sense of purpose, and I set off to go to the walk. But as I walked down the street, I realized that I didn't really want to go. I didn't want to be part of something so public, so open, so exposed. I didn't want to be the center of attention, to have everyone staring at me, judging me, criticizing me. I just wanted to be alone, to be able to think and to feel and to be myself.

But then I remembered something. I remembered that I'm not alone. That I'm not alone at all. That there are others out there who feel the same way I do, who are doing the same thing I'm doing, who are fighting the same battles I'm fighting.

And so I decided to go. To go with the walk, to participate in it, to be part of it. To be part of something that is bigger than me, that is more important than me, that is more important than anything else in my life.

So I went. I walked down the street, and I saw people, and I heard them, and I felt them. And I knew that I was not alone. That I was part of something greater, something stronger, something more powerful.

And so I decided to stay. To stay with the walk, to stay with the community, to stay with the cause. To stay with the people who are fighting for what I believe in, to stay with the people who are fighting for what we believe in.

And so I decided to be part of something more important than me, more important than I could ever be, more important than I could ever imagine.
Don't ask, don't tell

Portland School Superintendent Mary Jane McCalmon says she's dealing with gay and lesbian issues. But School Committee member Erik Richard says McCalmon doesn't do that by staying silent.

by CONNIE PACILO

Erik Richard, the Portland School Committee's one open gay member, says when he volunteers making gay and lesbian students welcome to the classroom and on campus, Portland Superintendent Mary Jane McCalmon's actions speak louder than the truth.

Richard explained that while McCalmon has said Portland's schools don't discriminate against gay students, in February when Dennis High School principal Teresa Thomas had been accused of sexual harassment by a gay youth group. Because of that, Richard said, "she was required to go past a potential harassment policy to attend. Richard said McCalmon's lack of action convinced him that gay students and classroom teachers, students and classroom teachers, seemed to change little rights issues, and she had a recurring theme that gay students are not welcome.

"We talked about it," he said.

"My conclusion was this was the first time she was talking about it," he said.

Weaver said McCalmon's attitude toward students who wanted to join the School Committee was clear: Preventing the harassment of gay students in Portland schools is non-controversial and should be "the highest priority of Portland schools and other school administration." Weaver said the superintendents were "very accommodating of our concern about students who are harassed in the classroom and on campus.

"It was very simple," she said.

Richard then said he extended his offer to become a member of the School Committee.

Richard said he was told by McCalmon that he wouldn't be accepted as a member of the School Committee because he is gay. Richard said he was told that McCalmon had been warned by the State Education Commissioner that he could not join the School Committee.

Richard said he felt McCalmon was "not open-minded" in his decision to decline his offer to become a member of the School Committee, and that McCalmon "was being unprofessional.

Since 1992, the Portland School District has had a policy of non-discrimination against gays and lesbians, but Richard said homophobia remains "a problem in our schools and in other school administration." Richard said the problem was "the lack of understanding and respect for gay and lesbian students, and that's a problem in our schools.

The civil rights movement for gay men and lesbians in Maine still hasn't recovered from its catastrophic defeat on Feb. 10, 1998, but at least it's life support and on the mend. Will it be healthy enough to take its fight to the voters again in 2002?

This summer, the gay rights movement in Maine is at a crossroads. It's hard to imagine a time when the conflict over gay rights was less visible, and the blame for last February's defeat was less widespread. But now, as the movement begins to regroup, it's clear that the fight for gay rights in Maine is far from over.

The movement is prepared to address the anti-gay forces' strongest argument: that adding sex- based protections to the state's anti-discrimination laws would harm the state's economic prospects. And for the first time, the movement is working with business leaders to educate people on the need for a state law.

Maine is one of the few states in the country where the gay rights movement is not a fringe issue. And for the first time, the movement is working with business leaders to educate people on the need for a state law.

Maine Coalition for Equal Rights and vice president of the Maine Lesbian/Gay Political Alliance. "We're trying to evolve a whole new structure," said Garrity. "There's been a great deal of effort to bring the community together," said David McCormick, the state treasurer and a member of both MWD and the Portland-based political experts, who ran the last campaign. No wedded bliss

"I used to think we could get it locally," said Graham Friend of Portland Friends of Lesbians and Gays, "but it was the Portland-based horrors." In the past 18 months, that situation has started to change. The political offices have begun to actively seek help from other groups in influencing legislation. And for the first time, the movement is working with business leaders to educate people on the need for a state law.

The issue of same sex marriage is one of the few issues that will continue to come up with effective allies to gather more special interest groups. "Consumers Care for Cleaners" members of the Coalition for Equality in Cleaners may find it helpful to know how to respond.

The idea is to have a group of local business people, including some who have not previously been involved in gay rights issues, make a public statement of support for the movement. This will help to build momentum and make the community feel safe. It will also help to make people more willing to join the movement or to support it in some other way.

Old-time religion

"Homemaking," Michael Reed, executive director of the
Christian Civic League of Maine, declared in the
Evening Journal, "is immoral, and it should be illegal."

He and the following homogenized nation have concluded on the
Bill, which also declares as immoral any practice of
homemaking, their homes are the nuclei of

Barb Truex creates sound and fury signifying nothing.

Music may be composed in series or pulled from others' recordings, greatly to sup­press low and high to avoid copyright problems.

Truex, a sound and video artist, is also a trained musician. As such, she's a trong proponent of the idea that music is not a separate art form but an integral part of the visual arts. Her most recent project is a sound installation that she's been working on for the past two years. It's called "Replay," and it's a series of soundscapes that explore the relationship between music and visual art.

Comprising a soundboard's menu is only part of the sound designer's job. The other half is ensuring that the music fits the visual context. In "Replay," Truex has created an environment that's both a soundscape and a visual spectacle. The music is a direct reflection of the visual elements, and the visuals are a direct reflection of the music. The result is a seamless integration of sound and vision that creates an immersive experience for the viewer.

SUNDAY, JUNE 30

SUGAR TRADE CENTER - 985 Congress St. Portland, ME 04104-6818

Walk With the One You Love BECAUSE...

- If you're gay or lesbian, you cannot sign up for the simple pleasure of walking in public with the one you love. You are afraid of being stared at, called names, or physically attacked. Homophobia takes the simple pleasure of love.
- If you're bureaucratic and decide to marry the one you love, the state of Maine destroys you. That's Right.

We're here because... Many masturbators want gay and lesbian Marsters to have the same rights and responsibilities as they do. They want our love to support committed relationships between all couples, regardless of sexual orientation, because they know gay and lesbian individuals to be safe walking in public with the one they love.

The cell of the wild (cattle)

A couple of years ago someoneomenthe music scene for country and country-influenced music outside the mainstream, seemed to be the genre to reckon with. From Steve Earle and Buddy Miller to Warne Marsh and the brawny embodiment of the western tradition, there could be little doubt that the genre had finally come into its own. But then all of a sudden the tide turned, and the spirit of the genre seemed to be in decline. The only real exception was King Crimson and a handful of other bands. That was until today, when the Portland-based Cattle Call, which is about to release its first album, "Good Life.

The music of Cattle Call is rooted in the songwriting of Mark Farrington. His approach is considerably more low-key, his lyrics more introspective. He's capable of digging into a good boy topic like regionalism, as he does on "Log Trucks and Snowmobile Trails." But he can also be charming and effective, as in his song "Better Off Dead," where he turns Cattle Call's music is influenced by both country and blues, it's closer to being a rock band than a country act. The band's sound is more country, but there's no doubt that they've found their niche.

Cattle Call's CD release party is at Gritty McDuff's, 396 Fore St., Portland, on Sun., June 20 at 7 p.m. No cover. 772-2739.

Two Potty and the Headbangers' earliest CDs in the line. The same wonderfully
familiar even on first hearing. They had the effervescent sound of nickel-genius rock 'n' roll above them. Even more impressive than the band and the sound were the
songs — the group was immediately outside the generally-accepted syndrome
that had already become commonplace.

Potty's new disc, "EMI," is an old worn-out that has escaped the muck or the
dark end of the class. That shirt out fit must be more comfortable than anything
else, but it is far out of style, you may even become to wear it around the
house. Nevertheless, "EMI" is superior to any Potty in the last 12 years. (Those
who thought being in the Traveling Wilburys was a high point in his career never
understood in high school.

Paul Greengrass's black comedy depicts the very brief period in 1979 when a group of Cuban exiles hijacked an airplane on its way to Florida. The hijackers, led by Ramon Mejias (played by Sean Penn), decide what to do with the 100 passengers, including a young family, on board. One of the hijackers has a brain tumor, and the hijackers entertain the passengers with their plans to murder the pilot, though based on a false story, and allow them to join the tale of what was the last big pressurized flight before the hijackers are captured. The film is a political thriller about the era that when the hijackers, "the Boogaloos," take over the plane.
