Can this man be trusted in Washington?

By Al Dunham

George Campbell appears to be having a midlife crisis. Campbell, 48, has all the classic symptoms: He's divorced and lives in a condo on Chandler's Wharf in Portland. He hangs out downtown at Morganfield's. He's also running for Congress.

But Campbell isn't your typical overstimulated doofus with hormonal imbalance problems. Whether he's dancing the funky chicken, driving fast and flashy, or turning himself into a political powerhouse, he has a track record that has to be taken seriously.

Campbell is a Portland city councilor and president of the business lobbying group, the Maine Alliance. He was a leader of New England Telephone's unsuccessful campaign to keep local measured service, and he headed up the sand-and-gravel industry's failed effort to widen the Maine Turnpike.

But he's not a flunky for big business. Campbell has also served as the Washington representative of the Portland-based Democratic Congressional District Committee and has helped to defeat Carolyn Cosby's anti-gay rights referendum. He says former Democratic Gov. Joe Brennan "really helped sharpen my values."

Which does nothing to explain why he contributed to GOP Sen. Bill Cohen's 1990 re-election war chest. Nor does it clear up the seeming inconsistency of simultaneously supporting a conservative call for sharp reductions in government spending and liberal demands for a higher state minimum wage.

Campbell calls himself "a pragmatic libertarian." His friends say he's a tireless worker with a superb understanding of the political process. His enemies call him a back-stabber who shifts positions depending on which way the political winds are blowing.

A conversation with Tom St. Amand

Tom St. Amand is an exterminator. His brother Ted, St. Amand runs Atlantic Exterminating. The business, which they inherited from their father, is very much a family enterprise—St. Amand's sister, Deborah, recently got her bug technician's license and their cousin runs the office. St. Amand has been in business, but he had discovered that "ants are recession-proof."

You must really hate insects.
I've got a reputation about it—lots of letters on the subject, the killing. If people want to eliminate something that's a bad bug, I'll do it.

What keeps you up at night?
That's the nastiest job you ever did?
Do you have nightmares?

What else keeps you up at night?

It sounded like rain—what a nightmare.

Sometimes, I'm pretty immune to it now—I've been going out (somewhat) since I was 13—

One time, we did this place—first thing, the bugs were falling off the ceiling into the room, so many of them it sounded like—

Do you get rid of rats?

What are the worst bugs?

What's the nastiest job you ever did?

What are the worst bugs?

What other kinds of bugs does Cumberland County attract?

the church. Maybe she'll make it
into a home for the politically insane.

In addition to the survey, the grant will help fund NAC's work for the next three years, provided the group receives...
Can this man be trusted in Washington

Campbell faces a list of potential Democratic 1st District candidates. Allen, Andrews, state Sen. Dale McCormick of Newport, a conservative Democrat, and former state Senate President Donald Durante have all floated names as possible candidates. Several others care less about where Campbell's finances go. 

Others care less about where Campbell's finances go. If Campbell is not an illegal fundraiser or does not abandon his positions, but I haven't seen it yet.
Can this man be trusted in Washington?

But there's no question Campbell and the Maine Alliance were among one of the bigger clashes between the state legislature and the Land Trust, as well as one of the leaders of the referendum campaign that defeated the proposal.

I wanna grow up to be a politician

Campbell's candidacy for Congress is being taken very seriously by both potential opponents. HisService money, and he's got a clear message. "He began to position himself as the precious Democrat in a field of well-versed liberals," and now political outsider. But the question of whether Campbell will attract solid support among the traditionally liberal voters in his district is still open.

Bearing witness: John Preston's final words

The last literary testament of Maine's gay scribe

by Al Dawson

John Preston's final two books make perfect gifts for the family member you love. The "Dear" series, "Friends and Lovers," Preston has managed to convey more about the nature of family than any collection of written confessions I have ever read. In writing about "Friends and Lovers," he was exploring the meaning of the family we create, not the one we're born into. It's a testament to his skill as a writer that he was able to make this so meaningful.

Preston's writing is a deeply personal exploration of what it means to be human, and especially what it means to be gay in a world that doesn't always accept us for who we are. His essays are filled with humor, insight, and compassion, and they offer a powerful reminder of the resilience of the human spirit.

One of the most moving parts of "Friends and Lovers" is when Preston talks about his relationship with his wife, Tom. He writes about how they met, how they fell in love, and how they've been together through all the ups and downs of life. It's a love story that is also a story of loss, as Tom passed away a few years ago. But Preston's story of their relationship is one of hope and renewal, and it's a testament to the power of love to heal.

"Friends and Lovers" is a beautifully written book that will resonate with anyone who has ever felt like they didn't fit in. It's a powerful reminder that we all have so much to offer the world, and that we should never be afraid to be who we are.

"Friends and Lovers" is available now at your local bookstore or online at [insert online retailer]. Make it your holiday gift this year, and help support the work of a talented writer who has given us so much.
