What's it like getting $130 a month cash
plasma

Biologicals has to meet strict federal regulations, so it is a safe place. And many of the donors are
body to replace (unlike whole blood), So what are you waiting for? There is a continual shortage of

A:

hepatItIS, <md other diseases, blood typmg serums, and many other products, Sound interesting? (t isf

 whole , blood is available and are used in emergencies for shock and burn victims, vaccines for tetanus, mumps,
the fol1OW'lng, dotting concentrates for hemophiliacs, volume expanders which maintain blood volume until
month (you are paid in cash at the end of your donation) you

plasma used

BIologicals, What is it like donating plasma at the Portland Center? Very satisfying. Besides earning

at Portland Biological Plasma Center?

Q: What is Portland Biologicals like?

A:

Q: Where is it?

Q: How long does the procedure last?

Q: Does it hurt?

How long have you been singing?

Well, I don't mind divulging that except it really does
give my age away. I was born singing, I have always loved to sing. I played main­ly rock 'n' roll for years and was the lead singer in rock 'n' roll groups for years. I was a keyboard player in a trio
of bands, and a bass player and a sax player and a
flute player. I started playing the piano when I was four . I
flute player. I started playing the piano when I was four . I
'm very much a multi-instrumentalist, at least.

Gotta get an answer

Project Vote Smart recently tested a new method of getting the facts when you're looking for voter information. Here's how it works:

1. Go to vote-smart.org and click "Open in a new window." This opens a new tab in your browser.
2. Enter your zip code or city and state.
3. Select your candidate(s) or issue(s) you're interested in.
4. Click "Get an Answer." You'll be taken to a page where you can ask your question.
5. Fill out the form with your question and submit it.
6. You'll receive an answer within 24 hours.

The best part? Project Vote Smart guarantees your anonymity. You can't be traced back to your original question.

Thanks for using this service. Let's get the facts out there and make politics more accessible for everyone!

**CASCADIAN WEEKLY**

The egg and 1/2

Organizer Austin "Jack" Reed of the nonprofit Maine Public Media, which owns WERU-FM, said the group's first public television issue aired Aug. 7 on WMTW's The Club.

Reed said the group was able to air the issue because of a recent ruling by the Federal Communications Commission that allows public media to broadcast political issues.

The group's first issue, "The egg and 1/2," was a discussion of the Maine Senate race between incumbent Democrat David Archambault and Republican challenger George "Babe" Stinson.

The issue was taped in early August and aired on WMTW.

Reed said the group plans to air more issues in the future.

"We're hoping to get more people interested in the political process," Reed said.

---

Thanks for not suing

WMTW-TV's Christine Young fawned all over DeCoster, and concluded their discussion by suggesting he clean up his operation in Turner.

But some at the Portland Press Herald were less impressed when he claimed he didn't know about the violations.

"WMTW's Christine Young did some fawning on his behalf," said the Herald's Chief Sumitator.

"I think we gave DeCoster all the credit he deserved," said the Herald's PhotoJournalist.

"I think we gave DeCoster all the credit he deserved," said the Herald's Beat Girl.

"I think we gave DeCoster all the credit he deserved," said the Herald's Classified Advertising.

---

The main reason for DeCoster's lack of coverage was his claim that he didn't know about the violations.

"But some at the Portland Press Herald were less impressed," said the Herald's Chief Sumitator.

"I think we gave DeCoster all the credit he deserved," said the Herald's PhotoJournalist.

"I think we gave DeCoster all the credit he deserved," said the Herald's Beat Girl.

Facing the music

Kinsky's experience with Granny's, it seems, has been on and off. "When you buy a club, it's hard to have the same vision for it that you thought you had," says Kinsky. "But I'm glad I'm here." In fact, Kinsky was back for a few years and then took over the operation, which he says is "very enjoyable." In the past, Kinsky has been known for his involvement in the music scene, both as a performer and as a promoter. He says that he's a fan of music and that he's glad to be involved in it.

Kinsky has also been known for his involvement in the community, both through his music and his business. He is a member of the board of directors of the Portland Area Musician's Association, and he's been involved in the Portland Music Festival. He says that he's glad to be involved in the community and that he's glad to be involved in music.

When government works

Last week in San Diego, Bob Dole and the Republican Party came out swinging at the federal government. Cut taxes, cut the government, program the programs, the GOP mantra went. And America will become a better place. "This work from the first of January on, into May just to pay your taxes," said Dole in his acceptance speech, "so that the party of government can satisfy its priorities..."

As the sun, but also knowing that others than himself must do the responsible thing and, most particularly when we are handed "permission." Visibility works, but it's certainly a lost cause if it's only practiced within the walls of a gay dance club or along a host of other acts that heterosexuals perform every day.

Out and about

I found quick and easy parking and proceeded to Kennebunkport-meets-Cape Cod thing going on down here. I was immediately struck by the charm. There's a very quaint architecture, learning disabilities and various other long-term health problems.

What does this have to do with the federal government? Through HUD grants, landlords have been able to pay for lead abatement programs that make their buildings safe for young families to live in. Many smaller landlords would not have been able to afford the renovations by themselves. The lead abatement program helps to keep housing stock on the market — good for landlords and tenants alike — and also helps to prevent the tragic damage that lead poisoning can cause. Children who aren't exposed to lead poisoning are less likely to need costly special education help in the future. Everybody comes out ahead.

In Portland, the housing stock is even older and more deteriorated than the national average. Therefore, the risk of the city's children being exposed to unacceptable levels of lead is of special concern. The city was able to qualify for $4 million in lead abatement money from HUD last year, and that money will eventually help landlords remove 30 units of housing — that must be rented to low-income tenants for five years. If landlord meet all the federal conditions, the loans are forgiven.

Yes, this is your tax money at work. What is it buying? Improved housing stock, landlords who can afford to do the responsible thing and, most importantly, healthier children. Fortunately, lead abatement funding — which has bipartisan support — is safe to be the current round of budget cuts. But it's a good example of what might be lost if Dole has his way and the taxes that can be drastically cut and the budget balanced by 2002. Sometimes, after all, the government does something right.

So noted

You know it's going to be a bad week when it becomes news to someone news people are worried about crack alley in Freeport. You know it's going to be a good week when it becomes news to someone news people are worried about crack alleys in Freeport.

The Return (again) of Ellis Paul... Why we love Delorean Welch

Kerry has a new and exciting job! Kerry, a former resident of Casco Bay Weekly, has been hired by the Portland Museum of Art to coordinate events and programs. She will be working on various initiatives, including the return of the annual Art in the Park festival. Kerry is thrilled to be back in her hometown and excited about the opportunities ahead. She can be reached at kerry@poma.org.

More than a decade since the inaugural Edouardo Mariscal Dances Theatre in action.

Mariscal, muy bueno

Choreographer Edouardo Mariscal asks of the admirers of his dancers, and they deliver

It's a week and a half before Dance Portland, Portland's all-inclusive show production of 'Tea Party Scatter' at Portland State University. A case of local dancers and choreographers, Portland, Portland's all-inclusive show production of 'Tea Party Scatter' at Portland State University. The work on different movements. Then we were going to perform what we were doing, and he began arranging all these things together. Two weeks later the company performed an early version of 'Nightmare on Hill Street' at USM.

Kennedy, a newsworthy Portlander who lives in the West End, said, 'I got involved with the company by responding to a CFP (Call for Proposals) looking for male and female dancers. Although he works as a lawyer, tennis and kayaks, he had never before performed as a dancer.' 'I thought it was fun to do,' he says. 'I call it out of my system!' He continued, 'I didn't have much for a really long time and a guy with a heavy Spanish accent asked me and asked if I could see an audition.' Kennedy looked for a spot in the company (which numbers around 25) and began attending rehearsals for what would become 'Nightmare on Hill Street.'

Whatenery, they were rehearsing, though, was something of a mystery. "It was because we never really totally claimed 'I have this piece choreographed,'" Kennedy says. "We would work on a piece or a certain amount of movement, and the next day we would go back and see what we did." Then he said it's when we were going to perform what we were doing, and he began arranging all these things together.

"Heart of a Dog." Director Louis Frederick adapted this political satire - banned in the Soviet Union for 62 years - that follows the adventures of a scroungy mutt named Scrappy, who is transformed by a dose of estrogen into Scrappykov, a crude man with a trashy sense of humor and an amorous tongue. "Heart of a Dog," opening Aug. 23 and running through Aug. 25, at US Congress St. in Portland, and Friday, Aug. 23, in Biddeford, Saco, and Derry - you know the spots of Resolve. Don't know where they are? They're regular visitors in my town. So everyone was smiling down at me going "you got the chance to talk 'n roll with an evening of music and mayhem by the always eccentric Melissa Etheridge, the hardest rockin' girl in town now. At the Cambellrand Country Club, 174 Asheville St., tickets: $35, $20 students and seniors.

Cross is a Teaching Jewelry Store: We have always found that whenever consumers 
have 
some questions, they expect us to provide answers. The result is the assurance that you are 
buying a diamond that has been weighed, graded, and certified by the Gemological Institute of 
America (GIA) and the American Gem Society (AGS). 

Cut diamonds offer this additional guarantee of quality. The precision of the 
cut determines how light enters the diamond, how it is refracted and reflected, and how it 
emits light. A poorly cut diamond will scatter light and lose much of its brilliance and 
drama. 

The philosophy which underlies Cross Jewelers' approach to the sale of 
diamonds is the commitment to excellence. The philosophy and commitment to excellence is your guarantee. The most beautiful way to cut a diamond is the one called the Ideal Cut. Only one diamond in ten thousand is cut to this exacting standard. A diamond that has not been cut to the Ideal Cut will lose up to forty percent of its brilliance and sparkle. 

The carat weight of a diamond is its size. The greater the total carat weight, the more light a diamond will absorb and reflect. The value of a diamond is based on its carat weight, clarity, color, and cut. 

The security of your diamond depends on the quality of the mounting, the 
sales or service, and the setting. Cross Jewelers guarantees the quality of its jewelry and the quality of its gemstones. The guarantee is written in the form of a service warranty, which covers repairs and adjustments for the life of the jewelry or the life of the gemstone.

Opening Cumberland County since 1903 - Affiliated with Mercy Health System of Maine.
Gillian Welch brings her modern sensibility to traditional music, to good effect

JIM PIFOLD

On the surface, it would appear that Gillian Welch has strayed from her music from a background of folk to produce the remarkable "Revival," her debut album and one of the strongest folky efforts in recent memory.

The album is the result of Welch's efforts in recent years to create a style of music that is a reflection of her roots. It is a style that is characterized by its simplicity and its honesty, and that is reflected in the songs that are included on the album.

The album is a reflection of Welch's own personal journey, and it is a journey that is marked by a sense of introspection and a desire to understand the world around her. It is a journey that is marked by a sense of mystery and a desire to explore the unknown.

The songs on the album are a reflection of Welch's own personal journey, and they are a reflection of her own personal experiences. They are a reflection of the world around her, and they are a reflection of the people who she has met along the way.

The songs on the album are a reflection of Welch's own personal journey, and they are a reflection of her own personal experiences. They are a reflection of the world around her, and they are a reflection of the people who she has met along the way.

The songs on the album are a reflection of Welch's own personal journey, and they are a reflection of her own personal experiences. They are a reflection of the world around her, and they are a reflection of the people who she has met along the way.

The songs on the album are a reflection of Welch's own personal journey, and they are a reflection of her own personal experiences. They are a reflection of the world around her, and they are a reflection of the people who she has met along the way.
