Whatever Carol Palesky is drinking, Topsham claimed she was the victim of a government conspiracy after being indicted Oct. 20 and 21. Or if it was, it mer-and-future Cumberland County sheriff.
And exactly how many apricot scones do you think you're wanting on this bike, dude?

That's not a fair question, though. As a matter of fact, I do not have the scones available on our current menu. You can't just break up with a rush. You and I just stop deciding to not like the scones anymore. For example, if you find yourself without any apricot scone, you might want to tackle the problem of a problem. And when I say a problem, I mean you to tackle the problem of my apricot scone. If I had time to tackle the apricot scone, I would have to tackle the apricot scone. And then I would have to tackle the apricot scone. But time is not on my side. And then I would have to tackle the apricot scone. But time is not on my side. And then I would have to tackle the apricot scone. But time is not on my side. And then I would have to tackle the apricot scone. But time is not on my side.

Weber Robert Parke once had six fictional detectives; one of his most believable was the beer lover whose mission it was to solve crimes. He believed in the power of a cold one to calm the mind and clear the head. Parke's stories were so convincing that some beer enthusiasts claim to have solved crimes after consuming a cold beer. It's a testament to the power of a well-crafted beer narrative.

FLAT BEER

Al Slatten

This was the year that, for the first time, Maine microbrewers closed down. The Lake of the Isles Brewing Co. in Livermore fell down in April after struggling along for three years as an increasingly competitive climate. This was the first year in which the state's major microbreweries were able to pick up the pieces of the previous year. Even then, however, most of the new breweries had increased their market share by 25 percent. The state's 28 breweries now account for 5 percent of all sales consumed in Maine, up from a mere 1 percent in 1989.

This was the year in which, in spite of flat sales in the entire beer industry as a whole, Maine microbrews increased their market share by 25 percent. But if the industry as a whole is thriving, how can some companies be struggling?

The answer seems to lie in the unique nature of the microbrew market and how consumers are reacting to it. More and more people are turning to microbrews as an increasing number of companies. With new breweries popping up faster than you can count them, the consumer can be overwhelmed, even if it is a benefit to the industry as a whole.

The trick to selling beer in this era of fierce competition is to hit the market with a product that will stand out from the rest. This was the year that, for the first time, people started taking microbrews into account when making their purchases. This was also the year in which, in spite of flat sales in the beer industry as a whole, Maine microbrews started making some money for the first time in years.

If a new beer gets a try, but if it doesn't sell, it's out of there. "A year ago, retailers took anything that came out," said Shipyard's Fred Forsley. "A year ago, we were so busy. We've finally started getting some shelf space for the beers."

Our problem: We're dealing with an increasing number of companies. With new breweries popping up faster than you can count them, the consumer can be overwhelmed, even if it is a benefit to the industry as a whole.

Most breweries are hoping the year's comparatively weak sales figures on a record year and poor weather in June and July. "The first quarter was just a disaster," said Jennifer Alt of Gritty's Rye Nation. "The second quarter was better, but we're not sure how long it will last."

We didn't pass last year's sales figures until the second quarter," said Bob Haggin of D.C. Geary Brewing in Portland, where sales have been steady for the past few years. "There's no way to know if the industry is thriving, but we're certainly not going to put all our eggs in one basket."

Competition is increasing with each new brewery opening. This was the year in which, in spite of flat sales in the beer industry as a whole, Maine microbrews started making some money for the first time in years.

VOTE NO. 5

If you like your beer a little bit more than you like your current local brew, then you've probably noticed the trend towards specialty beers. These are beers that are brewed for a specific purpose or with a unique flavor. They can be anything from a traditional ale to a sour beer, and they come in all shapes and sizes. Some of the most popular specialty beers include sour ales, Belgian lambics, and craft IPAs.

The trend towards specialty beers has been growing in popularity for several years now. In fact, many craft breweries now offer a variety of specialty beers, and they can be found in bars and restaurants all over the country. These beers are often more expensive than traditional beers, but many beer lovers are willing to pay the extra money for the unique flavors and experiences they provide.

One of the biggest benefits of specialty beers is that they offer a unique tasting experience. Each beer has its own distinct flavor profile, and many are made using unusual ingredients like fruit or spices. This makes it easy for beer lovers to find a beer that they love, and it also makes it easy for craft breweries to create new and exciting flavors.

Another benefit of specialty beers is that they can help bring people together. Many beer lovers enjoy trying new beers and sharing their experiences with others, and specialty beers provide a great opportunity to do just that. Whether you're a beer connoisseur or just looking to try something new, there's likely a specialty beer out there for you.
COMPARISON PRICING

How much is a six-pack of microbrew worth to you? And does the convenience of your local convenience store justify a higher price? What follows is a comparison of beer prices at local emporia. The dollar figures, which exclude tax and deposit, are for six-packs, except in the case of Budweiser. You'll need a suds scale of this sort to make up for the quality of the beer.

A BEER DRINKER'S ETIQUETTE GUIDE

Dr. Reader, you may scoff at the beer drinker, but remember, a taste
some country is stabled for all in 100 years. While we all know one

There is an element of obligation in
accepting free beer. If you are not willing
to have your ear bent about someone's
beer. It is unethical, and it gives the rest
other's. Go home. And if you are a hop­
head , shut up and then go home.

Tipping. On average, a pint of beer in
Portland costs $3. Some might think a
buck tip is excessive. But, if you like or
fair. It seems to me the world could take a
huge step if it learned to tip a little more.

Police action

It has been years since the last arrest for shoplifting, but there is still a problem. As the economy improves, so do the chances of people stealing. Some stores are taking steps to prevent theft, such as installing surveillance cameras and increasing security guards. However, the police are still responsible for enforcing the law.

The problem is not just with shoplifting, but also with other crimes such as vandalism and graffiti. The police are working to address these issues and make the city safer for everyone.

The police department is also working to improve relations with the community. They are holding more community meetings and engaging with residents to better understand their concerns and needs. It is a challenging task, but the police are dedicated to making sure that everyone feels safe and secure.

Econo-brew

A new type of beer is taking the market by storm. It is called econo-brew, and it is a cheap alternative to the expensive microbrews. econo-brew is made by a company called Budweiser, and it is sold in cans for just $0.60 each. The company claims that econo-brew is just as good as the microbrews, and some people agree. The econo-brew is a light beer, similar to a lager, and it is available in a variety of flavors, including lemon-lime and grapefruit.

Some people are skeptical about econo-brew. They say that it is not as good as the microbrews, and that it is just a cheaper alternative. However, others believe that econo-brew is a good option for people who want to save money on beer. The econo-brew is available in most supermarkets and convenience stores, and it is becoming increasingly popular.

Healthy response

Last night I went to the gym and was surprised to see a lot of people there. It is not uncommon to see people working out at the gym, but I was surprised to see so many people there at once. The gym was well-equipped with various machines and equipment, and there were people of all ages using them.

The gym was also staffed with trained instructors who were helping people with their workouts. It was a great experience, and I hope to continue going to the gym regularly to stay fit and healthy.

A brewery of one's own
Hii Le founded Vietnam in 1989. Now he wants to return to his home-land, bearing the fruits of his adopted land — microbrewed beer.

By Scott Williams

To most Portlanders, microbrewed beer is the envy of people who know it. But for Hii Le, owner of Hii-Shang Restaurant on Exchange Street, small-scale brewing may provide his ticket home to Vietnam.

Le, of Portland, hopes to start a Maine-style microbrewery in the Chin-City Chinatown (Le, like, like so many owners of places called Le, hopes to create a unique atmosphere). Le, in the words of one observer, has started following the French toast craze.

Le plans to open in June. He plans to start brewing in the fall of 1997. He plans to be up and running by the end of the year.

The Floating Neutrinos

I discovered something in Portland harbor recently that I found a lot more interesting than the usual suspects. The most unusual vessel was a catamaran built by the Maine Maritime Academy called the "Tall Ship." It caught my eye because it was a unique blend of art and function. The vessel was designed to be a work of art, with a sleek and modern look, yet it also served as a powerful symbol of the maritime heritage of Maine.

According to the academy, the Tall Ship is a 125-foot catamaran that was built to represent the state of Maine. It features a unique design that incorporates both traditional and modern elements, including a sail area of 8,000 square feet and a displacement of 200 tons. The ship is crewed by students and faculty members, who use it to teach courses in maritime studies and to conduct research.

I was also impressed by the ship's sustainability. It is powered by a combination of diesel and sail, allowing it to travel long distances without leaving a significant carbon footprint. The Tall Ship is a true example of how technology and tradition can come together to create something truly remarkable.

In addition to its educational role, the Tall Ship is also used for tourism. It offers several different types of trips, including day sails, overnight charters, and even cruises to nearby islands. Whether you're interested in history, nature, or simply enjoying a peaceful escape, the Tall Ship has something to offer.

I highly recommend checking out the Tall Ship when you're in Portland. It's a truly unique experience that combines education, adventure, and beauty. It's a wonderful reminder of the rich maritime heritage of Maine and the strong work ethic that continues to shape the state today.
Girl talk
How much anger and pain can a couple white chicks handle, anyway?

MARY STAMATEL
The latest offering from HighWire Theatre Company, "insideOut," is a high-density, nearly head-pounding play about friendship between women. It's a non-linear look at a relationship that spirals out of control on the rocks that every year, and it's a tough ride for audiences.

Written by Kari Allen, directed by Michael Howard and performed by Allen and Lisa, 3:15 p.m. in "insideOut" makes a listening experience that most audiences, including myself, will speak about for many years. It's a rich and segmented act and takes the language of psychotherapy. The characters explore their pasts, experiences and dreams through the events that make up the characters' lives. (Also included is a reading of poetry that is a rich and segmented act.)

The friendship begins in childhood, possibly at age six (as a family by old friends). Ultimately, the play doesn't threaten this group of people's emotional stability, but it does take place.

(Also included is a reading of poetry that is a rich and segmented act.)

Strange how they hang on to the "best friend" tag, even though a relationship is often harmful to them.

Rayna seems to be more popular than ever. It's almost funny how the audience, mesmerized by the sentiment of the actors, waits the 20 minutes to the next play.

We can't get too far behind the characters and grow, and instead, we see their lives. When Blue complains about her place in Rayna's life after Rayna has a baby, the audience says something that Blue's emotional emptiness.

There is power in the naked confession of the play, but it is like an extremely dangerous, everything is fait accompli. Nothing is saved long enough for three dramas but not too long for the next play.

**What a drag**

Some messages can be professed all by themselves, but it never hurts to have the right environment to strengthen them. For instance, I thought it would be a great idea to acknowledge it with a holiday card... Ru Paul, everyone's favorite cross-dressing supernova, once said, "Everyone is born twice: once as a baby; and a few years later as a drag queen. Which is why we have to come to terms with each other's sexuality. It certainly didn't take Ru Paul or motorcyles like 'Priscilla, Queen of the Desert,' 'The Wacko Fink,' or 'The Butch' to tell me what I already knew and believed - drag queen rules.

While drag queens are finding a unique position in the greater scheme of queer culture, not everyone in the gay community shares their enthusiasm for this fantastic genre of theatrical entertainment. Some of the queers past that many would like kept quiet, hidden or done away with altogether. Drag queen performing for their special groups went to try to make Black Awareness Month a little more colorful, with an eye towards the future of drag culture and the queer scene. For drag performances have been seen as a way for the community to express themselves and should be considered as the most creative one of those who resist conventional and traditional limitations. From police to shoe store. They are the most individualized, and the most hilarious, and are the ones that we should look towards.

Everything you love about drag queens is in the filters that make up the drag queen's world. There is a sense of freedom and joy in the way they express themselves, and a passion for life that is truly contagious. Drag queens are not defined by the clothes they wear or the way they look, but by the way they make us feel. They are not just performers, they are artists, and they are the truest form of drag culture, the foundation that everything is built upon.

**COME IN...it's that easy!**

"Imagine earning Holiday cash for a pinprick at Portland Biologicals..."  
Some of the easiest, most fun you ever heard of. I get cash for a good deed. $1350 a month, $1560 a year, all mine. Donating, I sit back in a soft lounge chair, read, study, talk, or just dream, in a place filled with friends, 60 min. later I'm up and away, smiling, cash in hand.

**PORTLAND BIOLOGICALS**  
960 Congress St., 205 Main St., 877-5715

**Great Beer • All The Maine Breweries • Home Brew Exhibits**

Even in the face of adversity, drag queens persevere, and continue to push boundaries and challenge expectations. Their artistry, their resilience, and their refusal to give up in the face of setbacks, is a testament to the power of drag culture. And while some may argue that drag culture is too niche, or too unimportant to the wider queer community, I believe that it is precisely because of this very specificity that drag queens are able to inspire and resonate with such a wide range of people.

Let us all consider the drag queen as a true artist, a true performer, and a true beacon of hope and inspiration. For in the end, isn't that what drag culture is all about? A world where anything is possible, where anything is allowed, where the only limit is the one we place upon ourselves. Drag queens are not defined by the clothes they wear or the way they look, but by the way they make us feel. They are not just performers, they are artists, and they are the truest form of drag culture, the foundation that everything is built upon.

Robert De Niro takes the oath to get his boys out of trouble in "SLEEPERS." 

SLEEPERS

Four men (Brad Pitt, Jason Patric, Billy Crudup and Ron Howard) are released from prison - 15 years too late - where they were falsely accused of murder. They take to the road to pursue their dream of becoming American millionaires. One by one, their lives begin to weave in and out of each other, shaping a career worthy of celluloid. Gene Hackman stars as a somewhere too. Whew! What a ride!

THINNER

a porker whose zeal for over-eating deprives him of the hope and dreams back to his inner self. The movie's message is that a simple myth can be the best aide to a life of shape and discipline. "THINNER" stars Katniss Reddick, clipper Chico and corseted M. C. Douglas, the 19th-century period film about an engineer and a big-game hunter on the African plain. Gripped by thirst and fear, the engineer and his young wife are forced to defend themselves against the ravenous lions that have claimed the lives of their friends and family. The movie is a thrilling adventure that will leave you breathless.

BOUND

Appearances might suggest a smart and punchy story , but it's a brash, absurd and sometimes offensive tale. Featuring Powers Boothe, as well as a killer performance by Liev Schreiber, "BOUND" is a movie that will take even the most seasoned viewer by surprise.

FLY AWAY HOME

an intelligence that fires off another action-packed celluloid. Gene Hackman stars as a man who finds himself on the hitlist of the CIA - the job turns with the perfect balance of satire and drama that make it into one of the most enjoyable films of the year. "FLY AWAY HOME" was directed by Neil Jordan, who also made "Vermont City Students". Don't feel bad if you don't get it.
