Showdown among the PPL stacks

Are budget cuts forcing scholarly services to compete with popular collections? Or is there a purloined agenda among the stacks at the Portland Public Library? See page 10

Broadening Broadway

Residents, councilors clash over S.P. road widening

By Paul Karr

When the South Portland City Council voted Feb. 3 to fund a widening of congested Broadway with $135,000 of city money, cross-town commuters rejoiced. But many other citizens were irate, because they'd already voted not to spend the money in a 1991 referendum. And six public works employees, fired in January because of city budget cuts, won't appreciate the spending spree either.

"Voters voted down the expansion in November," said City Councilor Kevin J. Glynn. "Then the City Council went and defied the will of the people."

"Pick A Card," Betsy Sholl's most recent book of poetry, won the 1991 Maine Arts Commission Chapbook competition. Plain spoken and unpretentious, Sholl dispenses with poetic artifice and digs straight down into the emotional core of her material-proving that poetry need not be academic to be powerful. Ex-USM student faces time for rape  
A former University of Southern Maine student convicted of raping a woman at a fraternity party has spring leave up to 40 years in prison.

A SuperCourt jury found 17-year-old of the gross sexual assault on Feb 1, the first case appealed in the state in which the victim said she was raped by a group of men.

"It is an extremely serious case for us in the state, says what it has done," says Justice William Beaulieu. "It appears from what he said at the trial that he has a very high ego and not really."  

District Attorney Stephanie Audicord said the verdict sends a message to rape victims that they will be heard.  

State House OKs recall bill  
A bill that would send a process aimed at giving Maine votes the power to recall state officials if approved by the House on Jan 30, but has further votes in the House and Senate.

The bill, sponsored by Westbrook Democrat William Learsia, would create a 10-member panel that would have to issue an advisory opinion within 30 days of the request for a recall. 

Another assault complaint filed against So Po cops  
Former are the subject of accusations of sexual assault from an officer's ex-wife who claims the police coerced her and a male acquaintance, then had them arrested by Portland police.  

Portland attorney Seth Blankenship says the Portland Police Commission is the appropriate body to investigate, and the attorneys sent a letter to the commission today.

The Maine Department of Transportation (DOT) will begin acquiring property immediately.

We hope you don't miss out on the chance to take advantage of our New Year's special.

It's been an exciting year, and we're looking forward to the new one. Our staff has been busy working on the building, and we're proud to announce the opening of our new restaurant.

The menu features a variety of dishes, from classic American favorites to more adventurous fare. We've worked hard to create a comfortable and inviting atmosphere, and we can't wait to share it with you.

We know that people get carried away and don't save room for dessert, so we've made sure to include plenty of options for those who have a sweet tooth. Whether you're looking for something light and sweet or something rich and indulgent, we've got you covered.

We're also excited to announce the reopening of our popular bar, complete with a new selection of wines and spirits. The bar is the perfect spot to unwind after a long day or to catch up with friends.

We're looking forward to seeing you soon, and we hope you'll make us part of your New Year's tradition.

Thank you for your support, and we look forward to serving you again soon.

An Ambulance isn’t just lights and siren

Most ambulance trips, in fact, aren’t emergencies at all. They are transports in highly specialized vehicles for persons who don’t wish to use regular transportation. The red-sashed, non-ambulance, the consensal, the person who needs transport to a medical facility for tests, to transport home to recover, or to a different medical facility for specialized care — these are all people who need and use ambulance transportation regularly. And MEDEC Ambulance is the service people select when they want the highest quality care at the lowest possible price.

MEDEC has built a 6-year reputation of caring, professional, and economical ambulance service. We care about your patient and their peace of mind. Their safety, comfort, and medical needs are our prime concerns.

It doesn’t end with ambulance service, either. We can provide transport by wheelchair for those whose needs can be met by this even more economical method.

January was a difficult month for the man who runs the Portland Public Library, coming after a difficult year in which the librarian undertook a major reorganization of the library's collections and services. Kaye's job is to make the library "meaningful and relevant," to find ways to "make the Portland Public Library more useful."

Kaye's plans to maximize the library's potential are not without controversy. Some librarians and patrons question the wisdom of cutting some collections and shifting resources to others. Others argue that the library is not doing enough to attract new patrons.

"I think the board is protective of that so I've got that," Kaye said in an interview. "We're not going to bring in the same number of people that the library used to bring in, but we're going to bring in the kind of people that the library needs to attract."

Money and services
Although money is not the library's most immediate concern — and an excepted shortage of it is opening Kaye's renegotiation agenda — both he and the system's management would come away, even if money were plentiful. 'Organizational, we have been talking about what we should offer,' said Kaye. 'What does the question is the budget. That's what makes it a far more immediate question.' Kaye added that he wants to make money saving changes in the least realistic way possible. 'The library would continue to spend 15 percent of its budget on acquisitions, (for instance, although both he and O'Leary would like to spend more. No branches will close. The bookmobile won't stop running. The main library won't be open sooner than its current 45 hours a week.

Cumberland County: a book borrower's mecca Libraries, libraries everywhere

The world's first teen-supported, teen led library program was established in April 1992 at the Cumberland County Library in Portland, N.H. Today, more than three dozen U.S. modern branches have followed, and Cumberland County Library is on its way to provide library services to all ages and at all levels. The library is part of a system of more than 40 small and large communities. Library by Library.

Cumberland County Library is a teen library. Two, in fact: two law libraries, two higher education libraries. A few, such as the teen library, serve public access although you may be able to see a college student visit through a library. Teen's where to borrow a book or find a law library. This is what is being drawn drawn to libraries in this field. Cumberland County Library is a teen's library. Were it in Arizona, and for fees and access restrictions. Whatever you can get away with

News Item: Portland police recently arrested as Portland terrorism suspects three young men who had been traveling in the city. The men allegedly had been involved in a plot to attack the city and had been following a series of violent acts.

These are all good movies. They touch a chord. They tell the tortured and grief-stricken family that they could get away with something like this? What's the moral of the story? Why does the film want us to think that we can get away with murder?

News Item: A local named Bush has been arrested on charges of fraud.

Not all hunters bleedthirsty

I am surprised to read a letter to the Editor that makes light of the hunting season. Yes, there are many who don't always follow the rules, and they are츠呢 håer of law enforcement from the sea. You can see that the issue of who respect the people, land and wildlife is doing our best in keeping to keep hunting season safe for everyone.

Just another knee-jerk fulmination

Subber's letter to the Editor is quite amusing. He writes that hunters are not as shallow as he seems to think they are.

Rape was the issue

Here's Bush's statement about who was the central point of the Willie Hunter issue. (Letters, 1.30.92) He writes that he couldn't have done anything.

 Beauties and the Beast: One of the most powerful narratives to emerge from Tokyo in recent years is "When the Bell Tolls," directed by Earle Hagen. It stars two of Japan's finest actresses, Megumi Kagurazaka and Michie Hatta, as two young women who are forced to work in order to save their ailing father. Kagurazaka plays a bank teller with a child, while Hatta is a middle-aged woman who takes in a young boy. The film is a poignant and moving account of life in Japan, and it has become a box office success.

Poetry for everyday use

Betsy Sholl deals readers a deckful of aces

Many of the poems published in the United States today are what I call academic poetry. It is written for college professors, and most people find it irrelevant to their daily lives. Modern poetry is often seen as being "too intellectual" to be enjoyed by the average person.

Betsy Sholl, on the other hand, has written a collection of poetry that is accessible to everyone. Her poems are simple yet profound, and they touch on universal themes that everyone can relate to.

"Pick a Card," which is one of the poems in the collection, is a perfect example of Sholl's ability to connect with her readers. The poem is about the speaker's decision to choose a card from an old pack of Tarot cards. The card she selects is the Eight of Cups, which is often interpreted as a symbol of sacrifice and letting go.

"Pick a Card," and the other poems in this collection, are perfect for everyday use. They can be read in a quiet corner of the house, during a walk in the park, or even while doing household chores. The poems are accessible and enjoyable, and they offer a sense of comfort and solace in the busy world we live in.

Sholl's poetry is written with a genuine heart, and it is clear that she has a deep love for the written word. Her poems are a reminder that poetry is not just for elite audiences, but for everyone who has a love for the written word and a desire to connect with the world around them.

In conclusion, "Poetry for everyday use" is a wonderful collection of poems that everyone should read. It is a reminder that poetry is not just for the select few, but for everyone who has a love for the written word and a desire to connect with the world around them.

A one book fits all

Put the "Cupboard" on your bookshelf

Keep it simple, Argyle. Why is it that the fewer places in life are more secure and wholesome and delightful? It is because

nonviolent, whether they will ask it or not, when your kids.

The thing has so many, I'm a hunter last
