Thirty-four Peaks Island residents and seven guests attended the June 12th General Meeting.

Roy Lane, Dave Foss, and Ralph Warner, representatives of Central Maine Power (CMP) discussed the forthcoming decommissioning of the Peaks Island power plant and the switch-over to the new electrical feed coming from South Portland. (That is what all that work and dredging off Sandy Beach was about.) Explanations were given on the inadequacy of the existing Peaks Island plant and why the plant could no longer provide enough emergency power for the island. Seems as though a motor on the generator “threw a rod” and has been out of service for some time and that the island’s needs have exceeded the plant’s capacity. The last time the plant was used, manual power-distribution had to be performed and some electrical equipment, (the cash registers at Feeney’s were given as an example) was damaged. Although CMP insisted that the new configuration would be “twice as reliable”, there could still be times (aftermath of Hurricane Bob was given as an example from one of the membership) that we could be without power.

George Flaherty and Jeff Tarling from the City, and Dick Bradbury from the State discussed the brown tail moth situation on Peaks Island. President John Flynn opened the discussion by declaring surrender for this year’s situation and looked to next year for a possible victory. (Some residents felt that the City had proper assessment of this year’s situation and missed an opportunity to reduce the damage to trees and the suffering of those unfortunate residents and tourists who are allergic to the caterpillar hairs and webs.) Dick Bradbury discussed the effectiveness of various sprays and other controlling type applications that are available, their side affects on the environment, and when their application is most effective. He, George, and Jeff also discussed the procedures that must be followed before aerial spraying is possible on private lands. Many residents mentioned the cost of the ground spraying procedures and their allergic reactions to the caterpillar hairs and webs.

Captain Jackson from the Portland Fire Department announced that the City will perform a hazardous waste pickup and disposal on Friday July 14, 1995 from 11:00 AM to 2:00 PM. Materials can be brought to the pick-up point in from of the fire barn. DO NOT bring auto batteries. He also stated that this was a pilot program and that the City would access continuation of the process.

The next PINA Steering Committee meeting is on July 11, 1995 at 7:30 PM at the Senior Citizens’ Center.

The next General Meeting is on August 8, 1995 at 7:30 PM at the Community Center.
Peaks Island School Alumni Association

This year the association held its first essay contest. The winner from the Peaks Island School Class of 1995 was Aaron Schuit. He was presented with a $300. savings bond. With continued support, we hope to do this every year.

We are hearing from more alumni all the time, so keep spreading the word. The school is always looking for more class pictures and we are selling Alumni T-Shirts.

The Alumni Picnic this year has been canceled. The low response seems to indicate that every year might be too often to try to get together. We are hoping to combine next year with the Peaks Island Reunion and have a huge lobster bake.

For any information please contact the school 766-2528. Kathy Newell 766-2491 or Kim MacIsaac 766-2308.

"The acquisition, preservation & stewardship in perpetuity of Peaks Island lands for the use and enjoyment of Islanders & Visitors."

On Saturday, July 29th, the Peaks Island Land Preserve will be holding its first picnic on Battery Steele. All are welcome. The festivities begin at 1:00PM and include the Corporation's Annual Meeting. Bring your kite, lunch, lawnchair and even something to throw on the grill. If everything goes according to schedule, the sale of the Battery Steele property will have been completed by July 29th and the property will be owned by the Peaks Island Land Preserve. Please join us for the celebration.

We still need to raise a substantial amount of money for this project. We are able to have the closing in July because the seller is willing to take a note for $26,000 which will be payable to the STAR Foundation in September 1995. Contributions can be made by sending a check to the Land Preserve. All donations are very appreciated.

We would like to thank everyone who so generously made a donation of time and money towards purchasing this unique property. Your contribution has made this project possible. The Land Preserve will become stewards of the Battery Steele property in July 1995. It includes more than 14 woodland and wetland acres on which is located the historic, massive concrete structure that housed the large guns defending Casco Bay and Europe bound convoys anchored in Hussey Sound during World War II.

Our annual "Book Sale" is going to be Saturday, July 22, 1995, from 9am to 3pm. Donations to the "Book Sale" can be dropped off on Friday, July 21, in the Community Room from 10am to 2pm and again between 6pm and 8pm.

In addition to books, records, and cassette tapes, we will also offer for sale our unique, completely washable, canvas bookbags for the very fair price of $10 each. Get one there, before they're sold out! Besides, what better way to carry home all the great books you'll be buying at the "Book Sale"?

Attention all island authors and illustrators: Please contact us, if you've had a publication during this last year. We would like to invite you to our Annual Meeting, August 14, to speak about your work. Contact Priscilla Webster at the library.
