A conversation with Karen Ketover
Karen Ketover is the head of the Maine chapter of Cat Collectors, an international organization of people whose hobby is collecting virtually anything cat-related or featuring a cat. She owns over 200 cat items, including her “bathroom Cat” sidewalks and hand towels. Ketover, who works as a librarian at Walker Memorial Library in Westbrook, will travel to Juneau to attend the Annual Convention of Cat Collectors in Michigan.

What got you started?
Both the “Ich, the Sea gull” poster of Kliban’s cat and I thought, “Oh, that’s cute!” Recently I got my third tattoo, and it’s that same cat.

How many live cats do you have?
Only one. Most people who collect cat stuff have at least two. But I’m not one of those people who have to see all the “money.” You know.

Have you noticed any personality traits that cat collectors have in common?
Yeah. You’ve got three definitions of “cat lover.” In Westbrook, who have cats and collect cats. Some of us are sensible about how many — we’re all nuts in our own way.

How do you feel about dogs?
They’re OK. Dogs are the only animals you can’t keep if you’re the only person in the house. I don’t think about that right. They’re miserable, cats are self-sufficient, self-cleaning. You don’t have to walk them.

Do you have any other hobbies?
Well, apart from my Cat-graved and books — I’m in my third one. My husband and I have traveled over 20,000 miles to visit Westbook, Deer, Portland, Westham, Falmouth, and I’m working on Gothenburg. You just get a map from around 1927 and hit the highway.

Why gravestones?
A lot of times it’s the only area a person leaves. It comes from my childhood, if I stay with my aunt in the country and she takes me to this creepy old church with a cemetery out back and read me all the gravestones, making up stories about the people.

Sounds kind of morbid.
Oh, no. It’s only morbid if you fall into a coffin. I spent an abandoned graveyard in Tennessee with my ex-husband, and it walked over scads, nothing gross — fell up in my waist. The hair on the back of my neck stood up — I was in “Poltergeist!” When they pulled me out I just lay there on the floor, it was the funniest thing.

**Inmates at the State Pen**

By Bob Hildreth

Inmates at the Portland State Prison are facing a dilemma. The prison is being overcrowded, and the administration is trying to figure out how to handle the situation. The inmates are demanding more resources and better conditions, but the administration is reluctant to make changes. The situation is becoming more tense, and there is a risk of conflict.

**UNIVERSITY OF SOUTHERN MAINE**

**Portland West pleases city**

Portland West received funding from the Portland 04101 Inc. for development of its new restaurant. The council approved $5,000 in development grants for Portland West, which aims to revitalize its area and promote the local economy. President Charles O'Donnell said, "This funding will help us achieve our goal of creating a vibrant and inviting space for Portlanders and visitors alike." The restaurant is scheduled to open later this year.

**Politics & Other Mistakes**

By Al Dennis

Maine Democrats have an idea about how to get reelected in 1996. They think nothing happens if they don’t talk about it.

Take state party chairman Vincent Matson of Portland. Shortly after the Dems lost a U.S. Senate seat, the 1st District congressional seat, and control of the state Senate and House, Matson called a news conference to "attack budgeting" for the campaign effort. In January, he told the Associated Press he deserved another term as chair because he had fought Democrats. "I don’t believe in compromise," he said. "Let’s tell the world we need to make our position." Matson believes whether the city’s "longest-tenured Democratic" would avoid a repeat this spring. "There’s nothing wrong with a good healthy debate," he said. "But we can’t use community benefits from bloodletting."

Gubernatorial hopefuls are starting to do the math for the campaign.

Manager Bob Ganley had said his party would go to "a foreman’s meeting" to get a sense of what the people want. Edwards replied that the school budget should be cut by 1 percent or going to a student population. The state of high school reform and school rezoning also raises an overall sense of the budget. Edwards said in a March 1 news release.

On the same day, City Council Finance Committee Chair Jack Delogu said he would be a candidate on the school committee. Delogu, Clinton, Democratic City Treasurer, and state auditor, said he wanted to get "more money for our schools." "I don’t think we can use community benefits from bloodletting," he added. "I don’t want to see our tax dollars being spent on a foreman’s meeting to get a sense of what the people want."

Delogu and Matson both said they were "in favor of" the ballot measures. Delogu said he would be a candidate on the school committee. One Portland lawmaker who's working a bit, he can't. That's because interesting long hours make it impossible for legislators to hold normal jobs.

How do these people support themselves? And do they really repay?
The best and brightest

Even Portland's hottest classrooms outside the city have on intelligent efforts to bring their best students to campus. RD.1's second term, Rowe was named chair of the state's powerful Appropriations Committee and chairman of the state's higher education board. He is a leader in Minnesota's public education reform efforts, which have substantially raised school spending and increased teacher salaries. Rowe's role in developing policy ideas and drafting legislation has earned him national recognition as one of the nation's top young legislators. During his time in the Oregon House, Rowe chaired the Education Committee and served as the lead sponsor of landmark education reform legislation. His influence and leadership have been instrumental in transforming the way Oregon's public schools are funded and managed.

The city's most prestigious office in the city of the state's representative to a national bipartisan group of young legislators. Rowe's contributions to his state's education system have been significant. He has been instrumental in passing key legislation to increase funding for public schools, improve teacher salaries, and expand access to high-quality education for all students. His leadership on these issues has earned him the respect and admiration of his colleagues in the Oregon Legislature and beyond.

Back take your Legislature

Some of the Portland legislators are likely to get a little prickly about this week's cover stories. Legislators are accustomed to being called by the main- stream media, but they're not accustomed to being called by their constituents.

The Portland Press Herald had a story about the 100-day King's problem. As the governor approaches the first-day-on-the-job photos of lawmakers Mike and Becky Stimpson. legislators are accustomed to being coddled by the main- stream media, but they're not accustomed to being called by their constituents.

Sometimes a cigar isn't just a cigar

Mike DiCapri of Joe's Smoke Shop on Congress Street says his cigar business has boomed in the last year. "The long ones are the big sellers," he says. "The old-time White Owl and El Rey is $2.50, but it's the kind of cigar kids think are higher and stuff," says DiCapri as he opens and displays dozens of cigars. The price of better cigars starts at about $3.25 a piece and goes all the way up to $6 or more for very fine hand-rolled specimens. The most common and most popular varieties, like Macanudo or Arturo Fuente, are in the $2-$3 range. "You can't buy the legendary cigars of Cuba legally in the United States because of the embargo that's been in place for 50 years, but if you can find them, you're sure to pay a hefty price," says DiCapri.

"I'm looking for the right night to go down to the Evergreen Cemetery and have one," says a Portland cigar smoker.

Joe has been a smoker's institution in Portland for years, but a few options are getting into the cigar biz. One unlikely outfit is Duck's Corner Market, a small corner store in downtown Fore River that is a good place to pick up a new set of guitar strings or a 3-cup coffee. "It's also a nice place to pick up a cigar," says the shopkeeper, who keeps track of the different varieties available.

Sometimes a cigar isn't just a cigar

Cigars are not just for smoking anymore. They are also used in many other ways, such as art, jewelry, and fashion. For example, some artists create unique designs using cigar boxes and other cigar-related items. Cigars are also used in jewelry, with some designers creating rings, necklaces, and other pieces using cigar parts.

**Belly is firming up**

It's no surprise that Belly—whom she's jokingly called "that old box of a theater"—has been sold out for the past few weeks. Before she formed Belly, singer-songwriter/guitarist Tanya Donelly was a founding member of Throwing Muses. The band's sophomore record, "Star," is her solo debut. Belly released her first album in 1993, a collection of 10 songs written and recorded by the singer-songwriter/guitarist. The album features themes of love and life, as well as songs about falling in love and being in love. Belly's music is characterized by its simplicity and the joy she brings to her listeners. Belly is firming up her reputation as a solo artist, and her shows are becoming more and more popular. She is set to perform at the State Theater in Portland on April 6, and her tour is sure to be a success. Belly is a talented songwriter who has captured the hearts of many fans with her music. She is a true inspiration to all those who listen to her songs.
