The Lexington™
The lowest profile 3-stone diamond ring ever made.
After all the trying, comparing, discussions, and searching, and seeing what will make you feel the greatest joy, what will make you wake to every morning, what will make you feel the greatest joy, the Lexington's quiet, unobtrusive, low profile allows the diamonds' quality and precision proportions to speak volumes. This is a ring which flows effortlessly into your life and lifestyle, to provide a sense of confident joy for every day thereafter.

If you are considering a three-stone diamond engagement ring, the Lexington is the one ring you must try on. Even if you have never considered this look, do try it on; it will likely change your mind. Thai you have not yet tried this ring may be why you are still searching. The universal delight in this design lies the strength of our recommendation. The Lexington transforms.

Upcoming Features & Ad Opportunities

Reach your target audience by advertising your product or service in an issue of CBW targeting industry-specific content.

Oct 16 Theatre in Maine

The theatre is alive and well and around Portland, Maine! From the Portland Playhouse, Maine's oldest community theatre to the Schooflhouse Arts Center at Saco Lake, from summer theatre at the Ogunquit Playhouse to the Children's Theatre on Stevens Avenue, Maine actors, actresses, singers and playwrights are producing superb entertainment. The October 16 issue of CBW will bring you up to date on the flourishing theatre scene in Greater Portland and beyond. Deadline for editorial contributions and advertising is October 8.

Oct 23 Winterize Your Life

For some of us, the coming of winter means skiing, snowmobiling, hunting, and a hundred other things you need cold weather and snow to enjoy. For others, winter means staying indoors and wishing for spring. But for everyone—winter people and summer folk—certain things have to be done to and around our homes to ensure a safe, warm and happy winter. Our October 23 issue will explore the world of winterizing our lives, from car to pool to clothing. Deadline for editorial contributions and advertising is October 8.

Oct 30 Trick or Treat

Happy Halloween! In this issue, we will go beyond the candy and costumes and take a closer look at this spooky holiday. Share with us your favorite local ghost story or a story of how you celebrate Halloween. Deadline for editorial contributions and advertising is October 12.

Inside This Issue

Fall is my favorite time of the year. We happen to live in an area that reflects the beauty of fall magnificently. You know we are the envy of many. We thought we would put together an issue that reflects the beauty that Maine has to offer. Hopefully, we will all take a minute and get out to take advantage of the rich colors and beauty of fall.

For all our leaf peepers, we have information on where to go and when in order to enjoy some breathtaking views. Lahabruk, one of our apprentices, had the pleasure of taking a balloon ride in order to interview a gentleman who gave balloon rides over the area and he tells us it is a terrific way to enjoy the foliage.

Other stories include an interview with a very popular Jazz singer as well as a story about a great idea to raise money to help build a new school in Lincolnville.

This is issue number 39. Will I can't believe how time flies. Presently we are printing 3,000 copies and are gearing up to print 5,000 to meet our subscription needs for our 60th issue. So please hang on; we will be in your area soon. Keep those requests and ideas coming.

Making Strides Against Breast Cancer Walks Support Breast Cancer Awareness

Strides makes sure that cancer is a priority in community-wide, community-based voluntary health organizations dedicated to eliminating cancer. The organization is dedicated to oncology patients across the country-including others to get mammograms, the disease.

The three walks will take place on October 12 at 10 a.m. in Maine. The Walk Reserve is at 302 Litchfield Farms Road, East Falmouth, ME. For more information, call www.firstwalking.org.

Harvest Fund Now Accepting Grant Applications

The Harvest Fund makes it possible for farmers to access micro-loans of up to $15,000. The fund is a cooperative effort of several organizations including: the Maine Grain Alliance, the Maine Farmland Trust, the University of Maine, and the Maine Farm Business Development Center.

The application deadline is Wednesday, October 25, 2003. More information and a grant application form can be found at www.maine-grain.com or by calling 800-337-0433.

Adams School Celebrates After-School Programs

The event, sponsored by Maine Foster Children’s Network and the Maine Film Office, will be held at the Museum of Maine Art in Portland on October 15, 2003. The evening will feature a screening of the film "Grand Banks Dory Rowing Action Education" followed by a reception and dinner. Tickets are $35 and can be purchased by calling 207-775-8171.

National Childhood Lead Poisoning Prevention Month

The Maine Film Office is pleased to announce the 2nd Annual Maine Screenwriting Competition. Filmmakers Day, an event during the festival, will be held at the Maine State Museum on October 19, 2003. The competition is open to all Maine residents and is limited to one entry per person. Entry forms and information can be found on the festival website at www.maine-grain.com or by calling 800-337-0433.

National Estuarine Research Reserve

National Environmental Education and Training (NEET) grants, a $300 million initiative that will support the development of environmental education and training programs at the national, state, and local levels, are now available. The grants are designed to promote education and training in the fields of environmental science and policy, and are open to all U.S. citizens and permanent residents. For more information, visit www.neet.org or call 800-337-0433.

Ten Free Trees-Autumn Classics

The Ten free trees are given to Maine residents through a program coordinated by the Portland Public Library and the Maine State Museum. The trees are free and available on a first-come, first-served basis. For more information, call 800-337-0433.

Maine Film Festival

The Maine International Film Festival is proud to announce the 2nd Annual Maine Screenwriting Competition. **Laid Off? Change Happens!**

In Uncertain Times, Go Ahead! Accomplish Your Dreams!

By Romana Wade

It seems as if all the uncertainty occurring in the world is making people anxious to move forward. This is superfluous in pursuing dreams. "How can I get over my dream when the world is not ready for it?" asks one. This is where I am; I may fail or worse, lose my way."

For many, trying something new in uncertain times is a hurdle that they just can't attempt. We are taught that if we follow the rules of the world, we will achieve happiness. However, rules do not eliminate creativity or passion. Rather, they demand creativity.

Your goal is to define your passion and pursue it with energy, focus and determination. Do not be afraid of the journey and set your sights on the finish line. Many will take detours; others will stop or give up. This is life. Do not be afraid of the journey and set your sights on the finish line.

Creating your dream is an adventure.

**Fear is an emotion that stops many of us in our tracks.** However, it is a powerful emotion. Start by giving a new opportunity the benefit of the doubt. The only way to know if you will succeed is by trying.

Fear is an emotion that stops many of us in our tracks. However, it is a powerful emotion. Start by giving a new opportunity the benefit of the doubt. The only way to know if you will succeed is by trying.

To achieve your goals become more invisible. People who believe so much in themselves will make the right decisions to make success and your energy will attract others to you and bring you closer to success.

Tear it up and free yourself for success. There is nothing on the list that will stop ways to make it a reality. Realize that where will I find the means? I may not know, but if I can't find the means, I must find another way.

To achieve your goals become more invisible. People who believe so much in themselves will make the right decisions to make success and your energy will attract others to you and bring you closer to success.

Do not judge or analyze them, just move forward.

**CONTEST!**

Do you have a funny story about your dog/dogs behaving really, really badly? Send it to us in 300 words or less. The top two stories will be published in the October 16th issue. Please include your dog's breed and age at the time of the incident.

*Send your stories to Gooddogz@ao.com or write to him at Romanus@kickstart.com.*

**Adopt a Pet: Otis**

By the Animal Refuge League

Meet Otis! Otis is a 12-year-old Jack Russell Terrier with a sweet disposition and a wonderful temperament. He is a very active dog who loves to run and play. Otis is a medium-sized dog who is easy to control on a leash.

Otis's favorite things include running, playing fetch, and spending time with his human family. He is a very smart dog who loves to learn new tricks.

Otis is a very active dog who loves to run and play. He is a medium-sized dog who is easy to control on a leash.

He is also very intelligent and loves to learn new tricks.

*Otis is available for adoption from the Animal Refuge League.*

Goodwill Industries Hits the Road With Advertising Message

By Paul Kenevy

Goodwill Industries of Northern New England is taking a major step in its advertising and marketing strategies with a campaign that includes mobile marketing. The organization recently launched a mobile advertising campaign to promote its services and programs. This initiative is designed to reach a broader audience and increase awareness of Goodwill's mission.

The campaign involves the use of mobile devices and platforms to deliver messages to consumers on-the-go. It includes text messages, geofencing, and social media marketing tactics. The goal is to engage people in the community and encourage them to participate in Goodwill's programs and services.

"We're excited to bring this innovative approach to our advertising strategy," said Don Mackenzie, President of Don Mackenzie's Mobile Marketing Solutions. "By reaching people where they are, we can effectively communicate the value of Goodwill's mission and the impact we have on our community."

The mobile advertising campaign is part of a larger initiative to increase awareness and engagement with Goodwill's mission and programs. The organization is committed to providing opportunities for individuals with disabilities and other challenges to live their best lives.

Goodwill Industries of Northern New England serves communities in Maine and New Hampshire, offering programs and services that help people achieve independence and self-sufficiency. The organization is dedicated to transforming lives and building strong communities.

For more information about Goodwill Industries of Northern New England, visit their website or contact Don Mackenzie's Mobile Marketing Solutions at 207-828-3700.
Talk

A conversation with

Jeff Tarling

Jeff Tarling has been the head of Portland's Audubon Society since 1999. He loves trees and the fall.

In this Your favorite time of year?

In this time of year, I'll go see lots of trees and you can go seeling. September, October. And then I have to say once the leaves fall off the trees you have to see them again. I think we're lucky here on the coast of Maine. In a few weeks there will be another foliage season. We have the one that's earlier. Late August, early September you'll see them. They have kind of the redness of fall before they have color. Late August, early September you'll see them. They have kind of the redness of fall. And then the leaves that are in the green phase, sort of like a park.

What are the best places locally to view foliage?

Some of the great places in Portland to see foliage, of course, right here at Evergreen Cemetery. But only it's a cemetery, but it's also a beautiful park. And there are other places where you can see the leaves turn. For example, you can see them along the Saco River, and you can see them along the Presumpscot River, and the Back Cove and the Back River, and there are lots of places where you can see the leaves.

What kind of trees do you like?

Some of the great places in Portland to see foliage is over the St. Croix River in the state of Maine. And then I have to say once the leaves fall off the trees you have to see them again. I think we're lucky here on the coast that in a few weeks there will be another foliage season. We have the one that's earlier. Late August, early September you'll see them. They have kind of the redness of fall before they have color. Late August, early September you'll see them. They have kind of the redness of fall. And then the leaves that are in the green phase, sort of like a park.

Jeff Tarling walking along a tree line near Mallets Bay. More coastal, you see on the coast, but there is not many stands of Tạpppas. The trees are obvious. Shrubs and flowers, sort of a space, sort of like a park.

Does the cold play a part in the changing of color?

Yes, it's a very important factor in the changing of color. The longer the duration of light, the colder temperatures, and how much water is in the soil. The longer the duration of light, the colder the temperature, the more water is in the soil, the more color there will be.

Can you point out a tree and tell me how fall is coming?

No, but I know that there are some trees that really mark the beginning of fall. There are some trees that really mark the beginning of fall. There are some trees that really mark the beginning of fall.

NEAL BERRY

Macberser's Scirrulous Computing

A Wolf In the Hen House by Blv L. Robinson

NEAL BERRY

� The real problem at a recent hackathon I was involved in was how to best present a project. The team was working on a tool that would help users visualize large datasets. However, we were struggling with how to make the interface user-friendly and intuitive.

If you have any questions or suggestions, feel free to contact me at my email address: neal.berry@example.com.
Day length, rainfall and sugar

Many maple growers are very concerned about the weather patterns that have been occurring in Maine. Many are noting that the day length is much shorter than in previous years and that there seems to be more rainfall. This year’s sugar season has been very different from previous years, with a shorter growing season and more rainfall than usual. The weather patterns have affected the production of maple syrup, with some growers experiencing lower yields than in previous years.

Cooler days do not always mean cold nights though, and this can lead to other issues like frost heave, which can damage the roots of the trees. For those who have experienced frost heave, it’s important to take steps to protect the roots from further damage.

How do we protect ourselves?

There are different ways to protect yourself from frost heave. Our suggestion is to use a layer of mulch around the base of the trees to help retain moisture and protect the roots.

When should we plant?

It’s important to plant trees during the early spring to ensure that they have enough time to establish themselves before the growing season begins. Late spring plantings may not have enough time to develop a strong root system before winter sets in, which could lead to problems later on.

Where to see foliage?

When planning a trip to see the fall colors, be sure to plan your visit during the week of October 9th to ensure the best foliage view. This is when the production of chlorophyll, which is created during the day and used at night, is at its peak.

How much is the cost of fall foliage?

The cost of fall foliage can vary depending on the area you visit. In general, the cost is around $10 to $20 per person for a day trip.

When is the best time to see fall foliage?

The best time to see fall foliage is during the week of October 9th to ensure the best foliage view. This is when the production of chlorophyll, which is created during the day and used at night, is at its peak.

How do we protect ourselves?

There are different ways to protect yourself from frost heave. Our suggestion is to use a layer of mulch around the base of the trees to help retain moisture and protect the roots.
Don't Step on the Cord

T

ere are many ways of doing things as

t

 logic dictates several solutions, the most

 Pye. We're back. Pops, a father of five,
who has a strong stomach and an eye for

 is a reworking of themes from many of director
S. Coppola's previous films. The movie is
taken place on and off the ice since the
season begins in September and runs through
March. The Pirates are a Canadian team in the
American Hockey League (AHL), and they play
in Portland, Maine. The team was founded in
1994 and has been owned by the Miami Heat of
the National Basketball Association (NBA) since
2001. The team has made the playoffs in four of
its nine seasons and has reached the Calder Cup
Finals two times, in 2002 and 2004. The Pirates
are part of the Heat's affiliate system in the
AHL. The team's home arena is the Cumberland
Crystal, where they play most of their home
 games. The Pirates have a strong local following
in Portland and are known for their ferocious
fan base. They are considered one of the most
entertaining teams in the AHL, with an
two-year-old son, a home run, and an
interest in photography. His major
hobbies include reading, writing,
and playing video games. He is also
an avid fan of the Pirates, and he
regularly attends games at the
Cumberland Club, where he is
often seen with a camera.

Lost in Translation

This film is rated R for profanity, mature
themes and brief nudity. It has a running
time of one hour and twelve minutes.

by Andy Kinzie (star)

This wonderful thing about Lost in Translation is the
way it traverses the world and the
attractiveness of the places and
people it visits. It is a story
about culture, language,
and travel.

The film opens with a shot of
Charlotte and Bob Harris, two
characters who will become
central to the story. They are
in Tokyo, where they are
working as part of a Japanese
film crew. Charlotte is a
director's assistant and Bob
is a writer for a magazine.

Charlotte is played by Sienna
Miller, and Bob is played by
Bill Murray. The chemistry
between the two is fantastic,
and their on-screen chemistry
is one of the highlights of the
film. They have a natural
chemistry and their
performances are the heart of
the film.

Lost in Translation

by Robert B. Noakes

The puck drops here
The Portland Pirates' season begins October 10

by Janet Spence

P

ortland Pirates head coach John Ouellet
has been watching his team evolve during the
first month of the 2004-2005 season. After
the team's success last year in the 2003 Calder Cup
Playoffs, he has been playing and planning for the
upcoming season, and it's looking like they're on the
right track.

Ouellet is in his second season as coach of the
Pirates, and he has been working hard to build a
team that can compete with the tough teams in the
AHL, where the Pirates compete. He is known for
his aggressive style of play and his ability to get the
most out of his players.

Ouellet is a former player himself, and he
understands the game well. He has
been coaching for over a decade and has
been successful wherever he has been.

The Portland Pirates are a
professional hockey team based in
Portland, Maine. They play in the
American Hockey League (AHL),
which is the top minor league
in North America. The Pirates
are owned by the Miami Heat of
the National Basketball
Association (NBA), and they
play in the Cumberland Crystal
in Portland.

The Pirates have had
success in recent years, making
the playoffs in three of the last four
seasons. They have a strong
local following in Portland and are
known for their ferocious fan base.
They are considered one of the most
talented teams in the AHL.

The Pirates' season begins
October 10, and they are looking
forward to another successful year.

the team's success last year in the 2003 Calder Cup
Playoffs, he has been playing and planning for the
upcoming season, and it's looking like they're on the
right track.

Ouellet is in his second season as coach of the
Pirates, and he has been working hard to build a
team that can compete with the tough teams in the
AHL, where the Pirates compete. He is known for
his aggressive style of play and his ability to get the
most out of his players.

Ouellet is a former player himself, and he
understands the game well. He has
been coaching for over a decade and has
been successful wherever he has been.

The Portland Pirates are a
professional hockey team based in
Portland, Maine. They play in the
American Hockey League (AHL),
which is the top minor league
in North America. The Pirates
are owned by the Miami Heat of
the National Basketball
Association (NBA), and they
play in the Cumberland Crystal
in Portland.

The Pirates have had
success in recent years, making
the playoffs in three of the last four
seasons. They have a strong
local following in Portland and are
known for their ferocious fan base.
They are considered one of the most
talented teams in the AHL.

The Pirates' season begins
October 10, and they are looking
forward to another successful year.

Lost in Translation

by Robert B. Noakes

This wonderful thing about Lost in Translation is the
way it traverses the world and the
attractiveness of the places and
people it visits. It is a story
about culture, language,
and travel.

The film opens with a shot of
Charlotte and Bob Harris, two
characters who will become
central to the story. They are
in Tokyo, where they are
working as part of a Japanese
film crew. Charlotte is a
director's assistant and Bob
is a writer for a magazine.

Charlotte is played by Sienna
Miller, and Bob is played by
Bill Murray. The chemistry
between the two is fantastic,
and their on-screen chemistry
is one of the highlights of the
film. They have a natural
chemistry and their
performances are the heart of
the film.

Funny bone

Jokes & Riddles

Some British Slang to Throw Around ....

Apple and Pears: (Slang) Nuts

Ap-nap: (Drinks) A greeting, hello.

Bed: (Dark) To telephone someone.

Boat Race: (Slang) Face.

Clump on Chips: (Slang) Extremely cheap. Chips, referring to French Fries, and from the period when they were considered an inexpensive meal.

I Should Come: (Slang) I should say so! A London expression used with irony and often followed by the sight someone outside the door. The person or even in speaking about the door.

Daff: (Slang) Billy bobish.

Dog and Bone: (Slang) Telephone.

Giggle: (Slang) A good, hearty laugh.

Jewsy: (Slang) Fortunate, lucky.

Knees as Masonry: (Slang) Very enthusiastic, eager.

Lemon Squeezy: (Slang) Easy, simple. Either from the fruit or the tool.

Lucky Dog: (Slang) Lucky.

Marmalade: (Slang) A form of jam.

Neck: (Slang) A present, a gift.

Phraso: (Slang) Different.

Tet: (Slang) Thank you! More in store for you! Please and permission is granted.

Who Is There?

By Jeff Elliot of Portland

Fading lights to blurry sights
Heavy sighs join closing eyes

TV, echo drowsing deep
Shuffling off to dreaming sleep

Lights form up to dreams on stage
Scripts unfold page after page

Some people known, but only now
I know them well, but don't know how.

So scenes change so quickly pass
Doorbell rings like breaking glass

Startle now my falling head
Who would yank me from my bed

Groping pants draped on the floor
Shuffling off to reach the door

Shadows cast on house front stand
Who is there, I'll now demand.

On Human Folly and Human Waste

By Douglas Woodsum of Waterville

That less through which you viewed
The world
Has found its black hole not on high
Nor in the center of your eye
But down the drain of unending whirl.

Do not lament; what's lost is lost.
Let not your mood be tempest tossed.
One clear eye holds to guide your
Thursday, October 9

P.O. Box 1238, Portland, ME 04104-1238.

Erdasa

By Michael Parker

Erdasa is a smooth jazz trio that has been playing together for over eight years. Sara Goulston and David Clark have been playing for two years, but when bassist Eric Goldenthal heard the two play at the Crazy Horse in Boston he asked if he could be a part of the trio. "It was the perfect fit," she says. "He brought a lot of energy and style to the music."

The trio also plays in duo form as "Golden Hands," a band with which Goldenthal's voice is the central feature. It is a run of jazz vocal duos, which is pronounced for its ease of movement. It is a beautiful sound which is not really a sound. If it could be a sound, it would be a beautiful sound. If it is a sound, it sounds like a beautiful sound. If it is a sound, it sounds like a beautiful sound. If it is a sound, it sounds like a beautiful sound.

Erdasa's sound is featured on several popular jazz standards including "Body and Soul," an exploration of the ways that love and loss can exist in the same space. "Body and Soul" is a beautiful sound which is pronounced for its ease of movement. It is a beautiful sound which is pronounced for its ease of movement. It is a beautiful sound which is pronounced for its ease of movement. It is a beautiful sound which is pronounced for its ease of movement.

The aforementioned breathing spaces are not the same. They are filled with spaces which are not really spaces. If they are not spaces, they are not spaces. They are filled with spaces which are not really spaces. If they are not spaces, they are not spaces. They are filled with spaces which are not really spaces. If they are not spaces, they are not spaces.

Sara Goldenthal's voice sounds like it has been polished through years of working with the Jazz School of New York City. Her voice is powerful, emotively strong, from the softest to the most forceful.
